EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claim 21, line 8, "second differential pair" has been changed to -- second differential input pair--.

The following is an examiner's statement of reasons for allowance: prior art, U.S. Patent # 5,990,737 of Czarnul et al., does not teach nor render obvious a circuit for amplifying an input signal close to a ground voltage or a negative supply voltage that has, in combination with other limitations, a voltage offset device coupled between an input for the first differential input pair and an input for the second differential input pair.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. U.S. Patents # 5,990,737, # 6,011,436, # 3,851,270, # 6,469,576 B2 contain some limitations of the claimed invention.
